Hardscape.com Porcelain Pavers Care Sheet

Description:

Hardscape.com 2cm, 3cm and 5cm porcelain pavers suitable for pedestrian and vehicular applications.

Cement Grout Haze Remover: DETERDEK - Acidic cleaner

Coverage: 1,630 sq ft / GAL

Dilution: 1:5 in water

Materials Needed: DETERDEK, Green scrubbing pad, Microfiber Cloth, Floor Scrubbing Machine.

- Distribute the diluted DETERDEK evenly across the porcelain using a long handled brush or similar applicator
- Scrub the surface with a green scrubbing pad
- Remove any remaining residue with a wet vacuum or a clean microfiber cloth.
- Thoroughly rinse the surface with a synthetic mop. Use one bucket to hold clean water and another bucket to strain dirty mop water.

This operation has to be done after installation to remove completely the grout haze.

Cement grout joint sealing: GROUT PROOF - Grout sealer

Min coverage: 216 sq ft / 24 oz

Max coverage: 431 s ft / 24 oz

Materials Needed: GROUT PROOF, Microfiber Cloth, Floor.

- Spray GROUT PROOF evenly across the grout joint making sure to wipe off any residue on the tile.
- A second coat would be suggested to strengthen protection.

This operation has to be done approximately every 2 to 3 years

Routine Maintenance Cleaner: CLEANALL – Neutral cleaner

Coverage: 61,115 sq ft / GAL

Dilution: 1:200 in water

Materials Needed: CLEANALL, Synthetic Mop, Long Handled Brush, Floor Washing Machine

- Dilute 1:200 (Capful per gallon)
- Distribute the mixture evenly across the tile using either a synthetic mop, long handled brush, or a floor washing machine
- No rinse is required

This cleaning has to be done whenever they clean the floor
